

K - 8 Math Adoption Committee - Minutes

December 13, 2023

LEC 129C

4pm-5pm

Welcome and debrief (4:03pm)

Dr. Tracy Watkins welcomed the committee and reviewed the final ratings for the top two programs (Eureka, and Illustrative). The committee discussed the “pros” of each of the top programs.

Table Task

The grade level tables were then asked to discuss their experience with lessons they had taught using either program.

The groups were then assigned to preview the teacher’s guide for each program and discuss the lesson framework, ease of navigation, student engagement and scaffolding. The groups reviewed and discussed the questions in depth.

Conclusion

Dr. Watkins concluded the meeting with a reminder of the evaluation process based on established criteria. The committee was tasked with reviewing each program closely, aligning each criteria and determining a quantitative score 1-4. The committee would then be provided the opportunity to score each program upon return from Christmas break.

The committee meeting concluded at **5:00pm**

Respectfully submitted by Dr. Tracy Watkins
